

Professional Filters For Koi and Fish Ponds

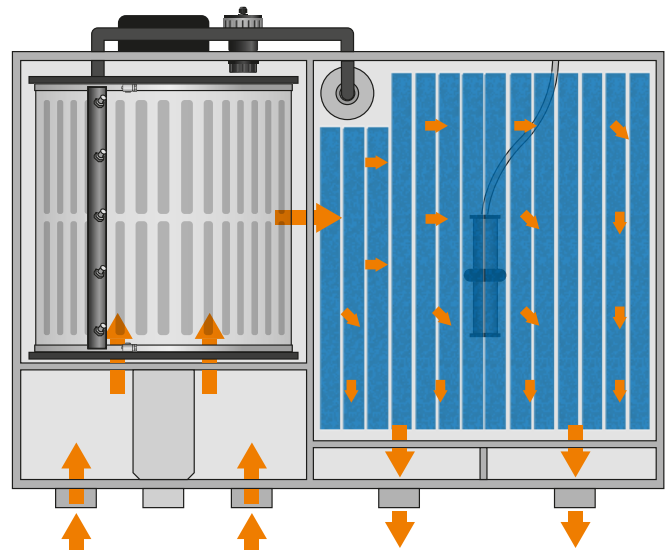

# Combi Drum 30000

Compact drum filter and biological filter in one  
Suitable for Koi ponds up to 30,000 litres

**Combi Drum with Aqwise media**

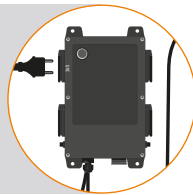

**Combi Drum with Japanese matting**

**Supplied complete with:**

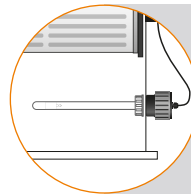

**Control Box**

For connecting all electrical equipment and controlling the filter pump, UVC, electromotor and high pressure rinsing pump.

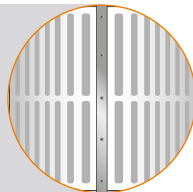

**Built-in immersion UVC**

Ensures crystal clear water, keeps algae growth under control. The UVC is placed under the drum and is therefore safely shielded from view.

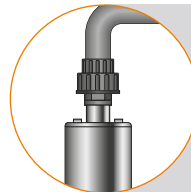

**Hi Flow Screen panel**

120 µm INOX316L screen panel of the drum, to filter small debris particles out of the water by mechanical filtration.

**Self cleaning**

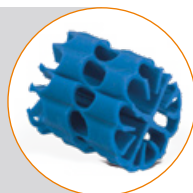

Automatic cleaning of the screen panel with a built-in high pressure rinse pump connected to the drumfilter spraybar.

**Recommended filter media for the biological filter chamber:**

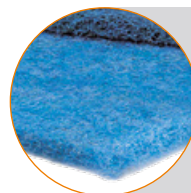

**Aqwise Filter media**

Floating bed filtration with Aqwise filter media, 30% better filter performance. Recommended amount: 50 litres.

**Japanese matting**

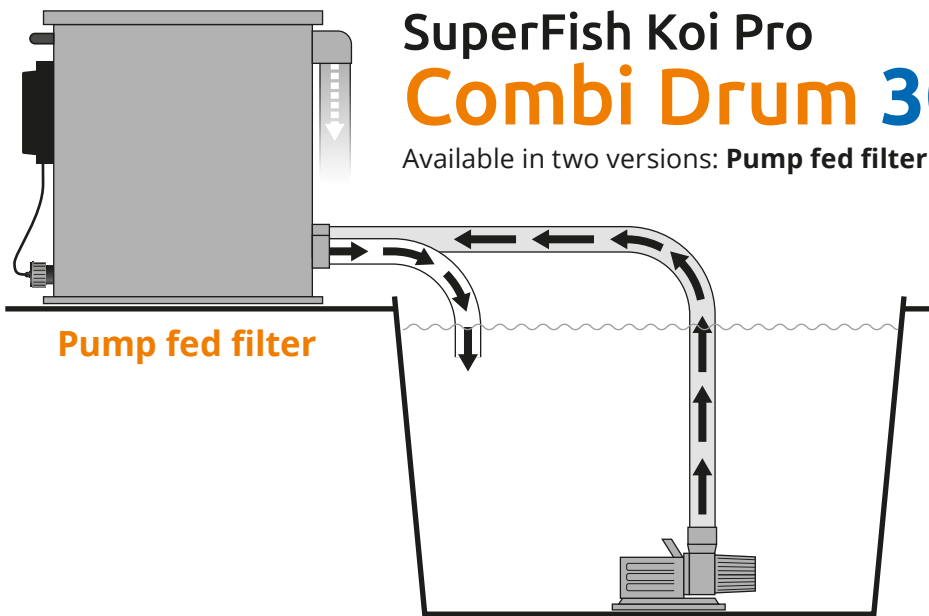

Japanese matting cartridge with vast bacterial adhesion surface, best biological media for Koi filters.

Model	Combi Drum 30000 Pump fed filter	Combi Drum 30000 Gravity filter

## Consumption and refreshment

How often the Combi Drum flushes depends entirely on the size and pollution of your pond. Count on 50 to 100 litres of water per day. Refreshing water is important for a healthy pond. The advice is to refresh 10% per week, the Combi Drum helps to achieve a healthy pond.

## Features:

- Available as Pump fed filter and Gravity filter.
- Low maintenance self cleaning filter, the user doesn't have to perform daily maintenance.
- Compact design (117 x 77 x 74.5 cm) with all inlets, outlets and dirt water drain on one side of the filter.
- The Combi Drum uses approximately 4 litres of pond water for cleaning.
- Filter housing made of high quality polypropylene.
- Drum filter with a 120 µm screen panel.
- Built-in high pressure rinse pump (750 Watt, 4 Bar).
- Electric motor, protected by automatic friction clutch.
- Biological filter chamber with Hi-Oxi airstone, 8/ 12 mm air hose and Quick-fit connection for optional air pump (1200 L/h).
- Integrated 40 Watt High Output immersion UVC.
- Control box to connect all electrical equipment.
- Safety, the system switches automatically into "Safety mode" when the water level inside the filter is too low (Gravity model) or too high (Pump fed model).
- Optional: Hang on protection cover, enabling you to attach the control box and the rinsing pump capacitor box to the filter, protected from splash water and rain.
- Custom made Japanese matting cartridge is available separately.
- 2 year warranty and comprehensive user manual.

- A Screen (drum)
- B Control box
- C Motor
- D UVC adapter
- E Immersion UVC
- F High pressure rinse pump
- G Hi-Oxi airstone
- H Quick fit air tube connection
- I Biological filter chamber
- J Dirty water drain
- K<sup>1</sup> Floater (Pump fed filter)
- K<sup>2</sup> Floater (Gravity filter)
- L Clamp 335-406 mm
- M Spray system
- N Floater cable
