Accessories.

Medaka Care.

Colombo Medaka Care ensures healthy and clear water. The breakdown of nutrients such as nitrate and phosphate is biologically stimulated, thus improving and stabilising water quality.

Maintenance product for healthy water, change 20% of the water in the tank every 2 weeks by draining the water and adding fresh tap water, adding Medaka Care.

Use Medaka Care in combination with Medaka PSB for optimal results. Test the water monthly and correct if necessary.

Contents: 100 ml sufficient for 500 litres. Dosage: 1 ml per 5 litres of water every 2 weeks. After administration, the water may become cloudy for about 24 hours.

S.R.P. **€6,79**

Medaka PSB.

Colombo Medaka PSB bacteria break down organic pollution, ensuring healthy water in which the Medaka feels at home.

PSB bacteria occur naturally in the Japanese rice fields where the Medaka comes from.

Use Medaka PSB in combination with Colombo Medaka Care for optimal results. Test the water monthly and correct if necessary.

Dosage: 1 ml per 5 litres of water; use Medaka PSB weekly for best results. The cap has a capacity of 10 ml. Shake well before use. The strong smell of PSB is normal. Use PSB within 6 months of opening.

Medaka Filter Kit.

Keep your Medaka healthy and the water clear with this complete Medaka Filter Kit.

The kit includes an Air-Flow Mini for oxygen addition and water movement, a Bio-Air Disk for water filtration and 2.5m of air hose for connecting the Air-Flow to the Bio-Air Disk.

The ceramic filter media in the Bio-Air Disk promotes beneficial bacteria to convert harmful ammonia (NH3) into nitrite (NO2) and nitrate (NO3).

Air-Flow Mini Pump capacity 78 L/h, 1.8 W.

Breeding and care.

Medaka Breeding Basket.

Protect eggs and newborn Medaka with this specially designed breeding basket that you float in the Medaka tank.

Thanks to the ultra-fine mesh, eggs and newborn Medaka get maximum protection while maintaining water flow.

Size Ø 13 x 7 cm, the floating foam ring is removable, for easy cleaning.

Medaka Spawning Mob.

Spanwing brush for Medaka and other egg-laying fish such as annual killifishes, rainbow fish etc.

Tip use our special Medaka Breeding Basket.

The Spawn Mob floats in the Medaka tank and mimics natural plants, instinctively attracting fish to spawn.

After the Medaka have deposited their eggs, simply place the Spawn Mob in a separate breeding container to protect eggs and young brood.4
